HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the

immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name-" Syrup of Figs"-or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

Schneider of Tucson, Ariz., who recently was indicted and arto \$12,000. A bonding company qualified as On the other side of the hotel the memsurety, and Schneider started for his home. bers of the Sigma Chi Association were A petition for writ of habeas corpus was having an equally merry time, in which the means employed in getting Schneider many distinguished members from different parts of the country joined. Prior to the dinner, Mr. W. H. Singleton, A. B. Duvall and A. Y. Bradley were appointed a committee to convey fraternal before the court. The petitioner alleged

illegal arrest and excessive bail. The forjoint indictment naming their client with F. A. Hyde, J. A. Benson and H. C. Dimond, all of San Francisco, contained no allegation that Schneider ever did any act in pursuance of the conspiracy, save for the general allegation that the four men

conspired and that Schneider was an employee of the principals, Hyde and Benson.

It was also stated that only \$10,000 ball had been fixed for Hyde and Dimond on a former indictment charging bribery.

Mr. Pugh's Argument. A. B. Pugh, special counsel for the government in the land fraud investigation. argued that there were 20,000 acres involved in this one indictment, and that there were hundreds of thousands of acres of public lands involved in the whole scheme of the alleged conspiracy. He said that the scheme was, fraudulently to secure tions in the states of California and Oreto relinquish these fraudulent titles for higher value. Schneider's part, it was allands in a fraudulent manner by paying had been exchanged, the titles were transferred from the "dummy" purchasers to the principals in the alleged conspiracy.

explained that the indictment embraced forty-two counts, each constituting a conspiracy, for each of which the penalty might be two years in prison and a fine of \$10,000, and even the court smiled at the suggestion of what the cumulative penalties might aggregate.

Appeal of Defendant's Counsel.

Counsel for the accused argued that Schneider was a poor man, that he came to Washington voluntarily and, counsel was informed, the defendant never had received any benefit from the alleged conspiracy other than his wages as an employe. Schneider, he said, came here with the knowledge that he was involved and came under the protection of the court, and the object of the government seemed to be to keep him in jail indefinitely. The court sustained an objection to the government's reference to Schneider's alleged re-fusal to answer certain questions before the grand jury and reduced the bail. Attorneys Cole and Donaldson and S. E. Hazzard appeared for the petitioner.

from duty in a few days by No. 72, and from the apartments of Postmaster Genand yesterday it was found that the jewelry had also disappeared. Detectives Muller, Cornwell, Peck and Pratt were assigned to do the outside work in locating the missing woman, and Detective Evans worked at headquarters to trace the missing property. Major Sylvester and Capt. Boardman watched the work of the detectives with interest and received frequent

reports of what was being done. It was stated at police headquarters today that Agnes French formerly lived in in Alexandria, Va. She was employed by months ago and was regarded as an excel-lent nurse. She is about forty years old and good looking. She has light complexion and bad teeth. In the description furnished the police it was stated that she is a neat dresser, is dignified looking and walks erect. She had said she wanted to do some shopping, and Thursday afternoon about 3:30 o'clock Mrs. Payne suggested that that was a good time for her to go. It was reported that Mamie Dorsey, colored, who was treated at the Casualty Hospital Monday night for an injury to her head, as stated in The Star at the time, was in a serious condition and would probably die. Symptoms of erysipelas had developed, and her condition was such that she had to be returned to the Casualty Hospital. It was ascertained that she had been returned there, but had shown so much improvement that she had again gone to her home in an alley near Massa-chusetts avenue and 11th street northeast. At the time the woman was first taken to the hospital she told the doctors that she had been assaulted by a white man. Last night she said she was not assaulted, and that her injury was received by failing from a wagon. It is believed she will re-
